SOS: Safeguard Our Students Petition

By signing the petition below I call upon the elected Minneapolis School Board to recognize the important connection between a healthy diet and clean environment with a student's ability to learn effectively and achieve high standards in school by adopting a policy which will :

1 · **Remove** commercial food advertisements and junk food vending machines from our schools.
2 · **Convert** school lunch programs to healthier menus, including a vegetarian option, avoiding irradiated as well as chemically and genetically contaminated foods, using organic and transition to organic ingredients from local growers whenever possible.
3 · **Teach** students about healthy living and sustainable agriculture through curricula and school gardens.
4 · **Ban** the spraying of toxic pesticides on school grounds and in school buildings and instead support non-toxic alternatives.
