

whole. raw. real.

 **ilike**
organic skin care

- certified, organically grown ingredients, all natural with no parabens
- harvested and processed by hand to ensure delicate plant structure not damaged
- cold processed fruits, vegetables and herbs converted into pulps – not extracts! – to retain the full concentration and power of the herbs

Experience the difference between real pulps and extracts...
and let your skin decide!

Valentine's specials

Treat your **Valentine** with **iilike** organic skin care **gifts** or **treatments**. Our special treatments for face, body, hands and feet include luscious red rose petals that hydrate and firm her skin, while soothing, calming rosehips boost his with vitamins. Enjoy your Valentine's night relaxing in a lush world of entrancing flowers with our mineral rich Purée Bath Organics salt -- a **gift with your purchase**. **[iilike partners click below for details, protocols and promotional offer...](#)**

roses for her - rosehips for him

Why do we use herb pulps vs extracts?

The products of **iilike organic skin care** contain **whole fruit and herb pulps** as primary active ingredients rather than herbal extracts. The importance of using real whole pulps versus extracts can only be explained by looking at the different processes and results of creating each. Read about these important facts, enjoy our products and live beautifully! **[get full article...](#)**
