

CLOTHES FOR A CHANGE PETITION

By signing the petition below, I call on clothing companies, elected officials, schools and universities, and government agencies to pursue the following three public policies:

- 1 *Stop using genetically engineered cotton.*
- 2 *Start blending in certified organic or "transition to organic" cotton and other fibers into the clothing they purchase or manufacture.*
- 3 *Guarantee that all clothing meets independently verified Fair Labor (non-sweatshop) standards.*
