

Whose Great Reset?

“Happiness is No Longer Important”

Tessa Lena aka “Tessa Fighting Robots” warns us to pay close attention to the rhetoric of the Davos crowd, the World Economic Forum, who are telling us that, after the Great Reset “we will own nothing,” (Blackrock, Vanguard, and the billionaires will presumably own everything,) but that we—the commoners—will still be able to “live a psychologically rich life.” That is if we just learn to shut up, roll up our sleeves, and follow orders. Basically, the elite are telling us that in the post COVID-19 era (endless pandemics, medical mandates, permanent wars, economic meltdown, and a terminal food/energy/climate crisis), we will need to lower our expectations and forget about being happy, much less prosperous.

Monsanto's Military History

Today, we launched a new live broadcast on our Millions Against Monsanto Facebook page, “The Secret Military History of Monsanto,” hosted by the OCA’s political director Alexis Baden-Mayer. Our guest for the inaugural broadcast was Mitchel Cohen, editor of the book, *The Fight Against Monsanto's Roundup: The Politics of Pesticides*, and author of the article, “War Within the War: The Fight Over Land and Genetically Engineered Agriculture.”

USDA Announces a “Tiny Reset”

The USDA has announced a small but welcome reset, i.e. significant increases in spending for organic food and farming, but still refuses to acknowledge that government subsidized chemical, GMO, and energy-intensive agriculture is a disaster.

Post-Vaccine Reset

World-renowned vaccine expert Dr. Tess Laurie reports: “During the Covid-19 chapter, elected and unelected leaders have given Big Pharma corporations carte blanche to inject us with whatever they choose. They have lied to us about the effects of these injections and have been given indemnity from our harm. So, how do we let Big Pharma know that we will not tolerate this behavior?”

Here’s one way: we stay healthy. Big Pharma is in the business of disease, not good health. We are Big Pharma’s best customers when we remain sick, which is why chronic illness is very lucrative, as it means we are their customers for life! When we take responsibility and keep ourselves in the best possible health, we are not good customers.

Bayer and Monsanto's Sinister Seventeen

OCA’s longtime ally, GMO Free, reminds us about “17 Toxic and Terrible” products that have been forced upon the world by Bayer and Monsanto:

“Bayer completed its purchase of Monsanto in 2018, in a move that the company’s own investors have rebelled against in recent months to the tune of a multi-billion dollar class action lawsuit against the company. Since then, the German pesticide, GMO and pharmaceutical company’s reputation had been considerably damaged due to being associated with Monsanto and its ongoing Roundup/cancer lawsuits.

Bayer and Monsanto have a lot in common, starting with the toxic products they have brought to market.

This is just a shortlist of the top reasons – the “Toxic 17” – why you should boycott Bayer-Monsanto, an unethical corporation and a scourge on humanity and the planet.”

Reset Eating

Re-imagine your relationship with food with the new book from the Alliance for Natural Health International (ANHI) that not only reveals the science and practicalities of turning what, how and when you eat into powerful medicine – but is also loaded with delicious recipes!

Reset Eating is a unique and easily accessible book that enables you to turn your food into powerful medicine to reset your health and resilience. In it you’ll find information and practical tools, including how food provides specific information for the body. You’ll also find a bunch of recipes for serious health creation. They utilize the ANH Intl’s ground-breaking Food4Health approach to life, catering for omnivores, flexitarians, vegans, vegetarians, as well as children.

OCA's Reset

We have to fight back against the WEF’s Great Reset on all fronts, and bring about a “peoples’ reset” which is organic, regenerative, just, peaceful, and participatory, but we need to stay healthy as we do so. So don’t panic, eat organic. As OCA, and a growing number of nutritionists, medical practitioners, and healers never tire of pointing out, a major defense, and likely our best defense, against chronic disease (affecting now the majority of U.S. adults and children—four times the rate of 40 years ago), the flu, cancer, heart disease, mental stress, depression, and even engineered viruses such as SARS-CoV-2, is to cultivate a strong immune system, optimum Vitamin D levels, adequate Omega 3 intake, and a healthy microbiome.

For a full collection of OCA’s curated articles on The Great Reset go to the homepage of our website www.OrganicConsumers.org and type in The Great Reset in the box on the upper right (next to the image of a magnifying glass).
